Savings Found: A Success Story

This global energy company signed on with Calero-MDSL to gain improved telecom spend visibility and data accuracy in a single platform. With improved processes and efficiencies, the enterprise found **over a million dollars** in savings last year. See how they did it below.

OVER $1.57 MILLION

$290K | **Benchmarking** market rates for contract optimization

$163K | **Billing error** discovery and dispute for chargeback

$217K | Identifying and closing out cancelled circuits to **cease errant billing**

$364K | **Flagging and cancelling** closed site circuits billing

$374K | **Rate analysis** to ensure negotiated contract pricing rates are upheld

$167K | Evaluating and cancelling **unused services** to cease unnecessary payment
