Complex Problems. Simple Solutions.

WELCOME TO CALERO-MDSL

www.caleromdsl.com
Managing an enterprise technology environment has too many moving parts to do it alone. Surviving on a patchwork of manual processes and software tools leads to wasted time and more importantly, wasted money. Stop surviving, start thriving.

### Spend Categories

- **Telecom Expense Management**
- **Managed Mobility Services**
- **SaaS Subscription Management**

### Functional Areas

- **Inventory Management**
  Understand the technology you have and where you have it. Gain visibility into inventory ownership, attributes and location across spend categories through a central platform.

- **Expense Management**
  Automate the audit, approval and cost allocation process, for any type of recurring expense, from invoice receipt through payment. Interface with corporate financial and AP platforms for seamless chargeback and payment reporting.

- **Order Management**
  Systemize technology ordering through configurable workflows or interface with leading IT Service Management (ITSM) tools. Visualize the entire procure-to-pay process and ensure accurate and up-to-date inventory.

- **Usage Management**
  Track technology usage across voice, video and data for cost justification and chargeback. Follow trends, rate traffic, optimize usage and spot abuse in real-time through actionable data insights.

- **Sourcing and Procurement**
  Leverage the experienced team at Calero-MDSL to introduce the best technology, improve service levels and optimize costs across vendors. Establish and execute RFPs, gather quotes, benchmark responses, negotiate terms and deploy services for successful client outcomes.
Who We Serve

Enterprise
Enterprise technology environments are complex and need to be managed proactively to provide the organization with a competitive advantage. Enterprises turn to Calero-MDSL to manage voice, video, data and mobility from procurement to payment and everything in between.

Government
Government entities require unique functionality and support to ensure secure data and process management. Federal, state and local governments trust Calero-MDSL software and services to manage invoices, allocate costs, chargeback usage and generate detailed reporting across their technology estate.

Higher Education
Calero-MDSL empowers colleges and universities to allocate charges for usage of technology service types to employees, campus units or students across the university. Our configurable platform enables IT administrators to optimize their technology environment and increase process efficiency for use cases unique to higher education.

We chose Calero-MDSL because they successfully demonstrated to us their extensive knowledge of global telecom providers, contracts and billing.

– Danfoss
We challenge convention and exceed expectations by delivering superior solutions with integrity and personal service that is lacking from our competition. Our solutions are designed to provide clarity, control, compliance and cost savings across your global technology estates. Whether you’re considering a relationship with us as a customer, a partner or a member of our team, we invite you to get to know us and our passion for this industry.
